

# HALF YEARLY COMPLIANCE REPORT

April – 2016 to September – 2016

Environment clearance of 5.6 MTPA Integrated Steel Plant  
Letter no.: 11011/829/2008-IA-II (I) dated 20.07.2012

## SPECIFIC CONDITIONS:

SL	CONDITIONS	COMPLIANCE STATUS
i)	Compliance to all the specific and general conditions stipulated for the existing plant by the Central / State Government shall be ensured and regular reports submitted to the Ministry's Regional Office at Bhubaneswar / SPCB.	<ul style="list-style-type: none"> <li>Compliance reports including monitoring data are being sent to MOEF&amp;CC, CPCB and SPCB regularly.</li> <li>The last half yearly compliance report was submitted vide letter no. BSL/MoEF&amp;CC/BS-01/2016-04 dated 25.04.2016.</li> </ul>
ii)	The target dates / schedule given for compliance to the conditions of environmental clearance for 3.1 MTPA Steel Plant to the State Pollution Control Board and to the Ministry shall be adhered to and reports regularly submitted to MoEF Regional Office at Bhubaneswar.	<ul style="list-style-type: none"> <li>Compliance to target dates is communicated through six monthly compliance reports which are being sent to MOEF&amp;CC, CPCB and SPCB including monitoring data regularly.</li> <li>The last half yearly compliance report was submitted vide letter no. BSL/MoEF&amp;CC/BS-01/2016-04 dated 25.04.2016.</li> </ul>
iii)	The 'Consent to Operate' shall be granted by SPCB only after satisfactory compliance of the conditions stipulated in the environmental clearance and Consent granted by the SPCB for the 3.1 MTPA steel plant. A joint visit shall be conducted by MoEF Regional Office at Bhubaneswar and SPCB in this regard. Periodic review of the project regarding compliance to the conditions stipulated shall be undertaken based on the compliance report submitted by the proponent within four months. The compliance status shall be monitored by the Regional Office of the Ministry at Bhubaneswar.	<ul style="list-style-type: none"> <li>Consent to Operate for 5.6 MTPA integrated steel plant has been obtained from SPCB vide letter no 5022/IND-I-CON-5440 dated 22.03.2016.</li> <li>This consent to operate is valid up to 31.03.2017.</li> </ul>
iv)	Measures shall be undertaken to mitigate particulate matter levels in the ambient air and a time bound action plan shall be	<ul style="list-style-type: none"> <li>Following measures are adopted to control particulate matter in ambient air at source itself:</li> </ul>

## HALF YEARLY COMPLIANCE REPORT

April – 2016 to September – 2016

submitted. On-line ambient air quality monitoring and continuous stack monitoring facilities for all the stacks shall be provided and sufficient air pollution control devices viz. Electro Static Precipitator (ESP), Gas cleaning plant (GCP), Bag Filter (BF) etc. shall be provided to keep the emission levels below by installing energy efficient technology.

- 28 numbers of ESPs have been installed at various locations to control particular emission at source itself.
- 52 numbers of bag filters have been installed at various locations to control particular emission at source itself.
- 03 numbers of scrubbers have been installed at Blast Furnace I, II and BOF.
- 108 numbers of rotary gun sprinklers installed covering all raw material yards.
- Dry fog dust suppression system having 252 nos. of nozzles have been installed in 46 junction houses.
- Details are enclosed as **annexure-I**.
- Due to these effective and efficient control measures, emission levels are being maintained well below the norm of 50 mg/Nm<sup>3</sup>
- The details of ESPs, bag filters and scrubbers are enclosed as **annexure-II**
- Mechanized road sweepers have been deployed to clean all concrete roads, shop floors of individual units.
- Water tankers have been deployed for water sprinkling whenever it is required.
- Due to all these latest and efficient air pollution control measures, ambient air quality in the complex is as per the AAQ standard.
- 23 numbers of online gas analyzers for gaseous parameters have been provided on stacks.
- 42 numbers of online dust monitors have also been installed and commissioned at the stacks.
- Details of online gas analyzers, online dust monitors with

		<p>photographs are enclosed as <b>annexure-III</b>.</p> <ul style="list-style-type: none"> <li>• To monitor the ambient air quality, we have installed 7 numbers of Continuous Ambient Air Quality Monitoring Stations (CAAQMS) in the entire complex of Bhushan Steel Limited and Bhushan Energy Limited, in consultation with SPCB, Odisha.</li> <li>• Details of CAAQMS with photograph are enclosed as <b>annexure-IV</b>.</li> </ul>
v)	<p>The bag filter shall be installed at the coal crusher and the screening area. Pneumatic dust handling system shall be provided at ESP hoppers in the sinter plant. The existing bag filters shall be upgraded. Fixed type water sprinklers shall be installed in the internal roads and at the material handling area to control the fugitive emission. Dry fog system shall be installed in the coal handling area. Dry sweeping (vacuum process) shall be carried out prior to water sprinkling on roads.</p>	<ul style="list-style-type: none"> <li>• Two de-dusting systems have been provided at the coal circuit.</li> <li>• Bag filter at Coal Screening Building - I with 70,000 m<sup>3</sup>/hr capacity.</li> <li>• Bag filter at Coal Screening Building - II with 93,400 m<sup>3</sup>/hr capacity.</li> <li>• Flow diagram is enclosed as <b>annexure-V</b>.</li> <li>• Five numbers of bag filters have also been provided in the iron ore circuit at crushing and screening points of raw material handling areas at the following locations: <ul style="list-style-type: none"> <li>• Ore Primary Screening with 48,000 m<sup>3</sup> / hr capacity</li> <li>• Ore Secondary Crushing with 5,000 m<sup>3</sup> / hr capacity</li> <li>• Ore Tertiary Crushing with 7,500 m<sup>3</sup> / hr capacity</li> <li>• Ore Secondary and Tertiary Screening with 40,000 m<sup>3</sup> / hr capacity.</li> <li>• Ore Screening Building with 48,000 m<sup>3</sup> / hr capacity</li> </ul> </li> <li>• Pneumatic dust handling system has been provided at ESP hoppers in the Sinter Plant 1.</li> <li>• Chain conveyor dust handling system has been provided at ESP hoppers of sinter plants 2 and 3.</li> </ul>

# HALF YEARLY COMPLIANCE REPORT

April – 2016 to September – 2016

		<ul style="list-style-type: none"> <li>• 252 numbers of nozzles in dry fog dust suppression system have been provided at 46 numbers of junction houses of raw material handling area.</li> <li>• A detailed scheme is enclosed as <b>annexure-I</b>.</li> <li>• Further, 108 nos. of rotary gun sprinklers have been installed throughout the raw material handling yards.</li> <li>• Mechanized road sweepers have been deployed for dry sweeping on roads and shop floors.</li> </ul>
vi)	The National Ambient Air Quality Standards issued by the Ministry vide G.S.R. No. 826(E) dated 16 <sup>th</sup> November, 2009 shall be followed.	<ul style="list-style-type: none"> <li>• To monitor the air quality standards issued by MoEF&amp;CC during November 2009, seven online Continuous Ambient Air Quality Monitoring Stations (CAAQMS) in entire complex of Bhushan Steel Limited &amp; Bhushan Energy Limited have been installed in consultation with SPCB, Odisha.</li> <li>• All the parameters are well within the prescribed limits and details are enclosed as <b>annexure-VI</b>.</li> </ul>
vii)	Gaseous emission levels including secondary fugitive emissions from all the sources shall be controlled within the latest permissible limits issued by the Ministry and regularly monitored. Guidelines / Code of Practice issued by the CPCB shall be followed.	<ul style="list-style-type: none"> <li>• Gaseous emissions and secondary fugitive monitoring data is within the permissible limits.</li> <li>• Monitoring report is attached as <b>annexure-VII</b>.</li> </ul>
viii)	Proper PPE shall be provided to all the workers including contract workers.	<ul style="list-style-type: none"> <li>• Necessary PPEs such as safety helmet, safety shoes, gloves, goggles, ear plug and ear muff etc. are being provided to all the workers working in the shop floor.</li> <li>• Photographs are attached as <b>annexure-VIII</b>.</li> </ul>
ix)	The natural drain / nallah present on the northern side of the project site shall not be disturbed. The main gate of the plant beyond	<ul style="list-style-type: none"> <li>• The natural nallah present on the northern side has not been disturbed.</li> </ul>

## HALF YEARLY COMPLIANCE REPORT

April – 2016 to September – 2016

	the nallah shall be shifted and the area should be developed into garden for public use.	<ul style="list-style-type: none"> <li>• A drop gate has been provided on the main road beyond nallah to control traffic.</li> </ul>
x)	Water requirement for expansion from River Brahmani shall not exceed 3,400m <sup>3</sup> /hr. All the effluent should be treated and used for ash handling, dust suppression and green belt development. No effluent shall be discharged and 'zero discharge' shall be adopted. Sanitary sewage should be treated in septic tank followed by soak pit for treatment of effluent run-off from the coal washery area, settling pond shall be de-silted regularly and additional settling tank shall be constructed.	<ul style="list-style-type: none"> <li>• Permission has been obtained for drawl of 9174.65 m<sup>3</sup> / hr of water from Department of Water Resources, Govt. of Odisha.</li> <li>• All the effluents are being treated in settling tanks (19 nos.) and common Effluent Treatment Plants (3 nos.). Treated water is used for dust suppression, ash handling, various process make up like coal washery, DRI, cooling towers and green area irrigation.</li> <li>• Besides the above facilities, various waste water treatment systems like BOD plants at Coke Oven 1 &amp; 2, ETP at CRM, Thickeners at Coal Washery, Blast Furnace 1 &amp; 2, BOF, SMS and HSM have been provided to recycle and reuse of treated waste water.</li> <li>• Zero discharge status is maintained except during torrential rain in monsoon season.</li> <li>• The sanitary sewage treated in 4 STPs, is being used for greenbelt development. The surface run-off from the coal washery area is routed through three numbers of settling tanks and settling tanks are properly maintained.</li> </ul>
xi)	Efforts shall be made to make use of rain water harvested. If needed, capacity of the reservoir should be enhanced to meet the maximum water requirement. Only balance water requirement shall be met from other sources.	<ul style="list-style-type: none"> <li>• To estimate the rain water harvesting potential of the plant areas, a detailed study has been completed.</li> <li>• The findings of the study are being evaluated and same will be implemented in phase manner.</li> </ul>
xii)	Regular monitoring of influent and effluent, surface, sub-surface and ground water (including chromite) should be ensured and	<ul style="list-style-type: none"> <li>• Monitoring of influent, effluent, surface and ground water is being carried out on monthly basis and the</li> </ul>

# HALF YEARLY COMPLIANCE REPORT

April – 2016 to September – 2016

	<p>treated waste water should meet the norms prescribed by the State Pollution Control Board or described under the Environment (Protection) Act whichever are more stringent. Leachate study for the effluent generated and analysis shall also be regularly carried out and report submitted to the Ministry's Regional Office at Bhubaneswar, SPCB and CPCB.</p>	<p>monitoring results are being submitted to SPCB / CPCB / MOEF&amp;CC at regular intervals.</p> <ul style="list-style-type: none"> <li>• Results are within the norms as prescribed by SPCB, Odisha.</li> <li>• The monitoring report is enclosed as <b>annexure-IX</b>.</li> <li>• Leachate characteristics of fly ash and bottom ash have been carried out at IMMT, Bhubaneswar and results of various trace metals are within the limits prescribed by US EPA.</li> <li>• A copy of the report is enclosed as <b>annexure-X</b>.</li> </ul>
xiii)	<p>All the blast furnace (BF) slag shall be provided to the cement manufacturers. Scrap shall be used in steel melting shop (SMS) and SMS slag and kiln accretions shall be properly utilized. All the other solid waste including broken refractory mass shall be properly disposed off in environment-friendly manner. Fly ash shall be utilized for the cement manufacturing and filling of mined out area after carrying geo hydrological study to prevent ground water pollution.</p>	<ul style="list-style-type: none"> <li>• The entire quantity of blast furnace slag is dispatched to cement manufacturers (M/s ACC &amp; M/s OCL).</li> <li>• Details of generation and utilization of Blast Furnace slag is given as <b>annexure-XI</b>.</li> <li>• Scrap is being used in Steel Melting Shop.</li> <li>• SMS slag is being used in sinter plant after processing in slag atomizing plant.</li> <li>• Balance slag is being used for soling of roads, railway ballast etc.</li> <li>• We have written to the RDSO, Lucknow and ECoR, Bhubaneswar for possible use of SMS slag as railway ballast.</li> <li>• Two numbers of fly ash brick manufacturing units are installed in the plant for maximum utilization of fly ash.</li> <li>• Fly ash bricks have been utilized in all construction works in the plant.</li> <li>• Fly ash is also being given to nearby fly ash brick manufacturing units, free of cost, for maximum utilization of ash.</li> </ul>

# HALF YEARLY COMPLIANCE REPORT

April – 2016 to September – 2016

		<ul style="list-style-type: none"> <li>• Advertisement issued in local news papers for supplying fly ash, free of cost, to all interested individuals, agencies and companies making fly ash based products.</li> <li>• Rest of the ash is being disposed at abandoned stone quarries at Karanda and Jagannath mine void no. 4 of MCL.</li> <li>• The disposing of fly ash has started from 15.03.2014 in the Jagannath mine void no 4, of MCL.</li> <li>• A detail report in this regard is enclosed as <b>annexure-XII</b></li> <li>• Consent to establish from SPCB, Odisha and other permissions from statutory bodies obtained for laying high concentration slurry disposal system to mine void. Work is in progress.</li> </ul>
xiv)	<p>Proper handling, storage, utilization and disposal of all the solid waste shall be ensured and regular report regarding toxic metal content in the waste material and its composition, end use of solid / hazardous waste should be submitted to the Ministry's Regional Office at Bhubaneswar, SPCB and CPCB.</p>	<ul style="list-style-type: none"> <li>• Details of solid waste generation, utilization and disposal are enclosed as <b>annexure-XIII</b>.</li> <li>• Report on metal composition in solid waste materials is enclosed as <b>annexure-XIV</b>.</li> <li>• Annual returns of hazardous waste are being regularly submitted to SPCB, Odisha.</li> </ul>
xv)	<p>Vehicular pollution due to transportation of raw material and finished products shall be controlled. Proper arrangements shall also be made to control dust emissions during loading and unloading of the raw material and finished product.</p>	<ul style="list-style-type: none"> <li>• Vehicles carrying raw materials and finished products are being covered with tarpaulin.</li> <li>• Water sprinkling arrangement has been made by installation of 108 numbers of rotary gun sprinklers at raw material handling areas to control dust emissions during loading and unloading of the raw material at site.</li> <li>• Additionally, effective dry fog dust suppression system having 252 nos. of nozzles have been installed in entire coal circuit and also at the</li> </ul>

## HALF YEARLY COMPLIANCE REPORT

April – 2016 to September – 2016

		unloading points of raw material handling area.
xvi)	The raw materials should regularly (six monthly) be monitored for trace metals and management plan shall be submitted to SPCB and MOEF Regional Office at Bhubaneswar.	<ul style="list-style-type: none"> <li>The analysis of trace metals is done by IMMT, Bhubaneswar. Copy of the same is enclosed as <b>annexure-XV</b>.</li> </ul>
xvii)	All internal roads shall be black topped. The roads shall be regularly cleaned with mechanical sweepers. A 3-tier avenue plantation using native species shall be developed along the roads.	<ul style="list-style-type: none"> <li>Inside plant area, instead of black topped roads, we are making all concrete roads which are much superior to the black topped roads.</li> <li>All concrete roads are being cleaned regularly by using mechanical road sweepers.</li> <li>Avenue plantation using native species has been developed along the roads.</li> </ul>
xviii)	An action plan for transfer from wet to dry quenching shall be submitted to the SPCB and MOEF Regional Office at Bhubaneswar within three months. The target date shall not be more than six years from the date of environmental clearance accorded for 3.1 MTPA Steel Plant i.e. 22.9.2008. Adequate space shall be provided for the retro fitting the dry coke quenching facility	<ul style="list-style-type: none"> <li>As per our request, MoEF&amp;CC gave consent vide letter no J - II0II / 829 / 2008-IA II (I) dated 10.09.2015 for extension of time for commissioning of coke dry quenching as given below: <ul style="list-style-type: none"> <li>CDQ – II by May 2017.</li> <li>CDQ – I by August 2017.</li> <li>Adequate space has been earmarked for coke dry quenching facility.</li> </ul> </li> </ul>
xix)	Risk and tragedy Management Plan along with the mitigation measures shall be prepared and a copy submitted to the Ministry's Regional Office at Bhubaneswar, SPCB and CPCB within three months of issue of environment clearance letter.	<ul style="list-style-type: none"> <li>A copy of the report on onsite emergency management plan along with the mitigation measures has already submitted along with the half yearly report vide letter no. BSL / MoEF / BS – 01 / 2014 - 04 dated 28.11.2014.</li> </ul>
xx)	As proposed, green belt shall be developed in 33 % of plant area as per the CPCB guidelines in consultation with the DFO.	<ul style="list-style-type: none"> <li>About 3.4 lakhs saplings have been planted in and around steel plant complex (including Bhushan Steel Limited and Bhushan Energy Limited) covering about 24 % of the total land area.</li> </ul>

## HALF YEARLY COMPLIANCE REPORT

April – 2016 to September – 2016

		<ul style="list-style-type: none"> <li>• We plan to cover 33% plant area under green cover by 2018-19.</li> <li>• Plantation photographs are attached as <b>annexure-XVI</b>.</li> <li>• Proper maintenance of green coverage is being ensured throughout the year.</li> </ul>
xxi)	All the recommendations made in the Charter on Corporate Responsibility for Environment Protection (CREP) for the Steel Plants should be implemented	<ul style="list-style-type: none"> <li>• All the recommendations made in the Charter on Corporate Responsibility for Environment Protection (CREP) for the Steel Plants have been implemented and the compliance report submitted along with the half yearly report vide letter no. BSL/MoEF/BS-01/2014-04 dated 28.11.2014.</li> </ul>
xxii)	All the commitments made to the public during the Public Hearing I Public Consultation meeting held on 28th October, 2010 should be satisfactorily implemented and a separate budget for implementing the same should be allocated and information submitted to the Ministry's Regional Office at Bhubaneswar.	<ul style="list-style-type: none"> <li>• Various socio - economic development programs covering education, safe drinking water, sanitation, sports and health care etc. are undertaken in nearby villages as per the suggestions made in public hearing.</li> <li>• Detailed compliance report is enclosed as <b>annexure-XVII</b>.</li> </ul>
xxiii)	At least 5 % of the total cost of the project should be earmarked towards the Enterprise Social Commitment (ESC) based on Public Hearing issues and item-wise details along with time bound action plan should be prepared and submitted to the Ministry's Regional Office at Bhubaneswar. Implementation of such program should be ensured accordingly in a time bound manner.	<ul style="list-style-type: none"> <li>• Various CSR activities have been undertaken since the inception of the plant by providing facilities of sanitation, drinking water, education, health care, road and communication etc.</li> <li>• Total Rs. 10.14 crore has been spent towards the CSR activities till now.</li> <li>• The details are enclosed as <b>annexure-XVIII</b>.</li> </ul>
xxiv)	The company shall provide housing for construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, safe drinking water, medical health care, creche etc. The housing may be in the form of temporary	<ul style="list-style-type: none"> <li>• All necessary infrastructure and housing facilities were provided for workers during construction phase of the plant within the site. Same facilities are being continued during operational phase of the plant.</li> </ul>

## HALF YEARLY COMPLIANCE REPORT

April – 2016 to September – 2016

	structures to be removed after the completion of the project.	
xxv)	The company shall set up State-of-the-art-environment control/monitoring and research lab with R& D facilities for waste utilization studies. The laboratory staff shall be provided with adequate training for use and maintenance of the equipments. An action plan in this regard shall be submitted to SPCB and MOEF Regional Office at Bhubaneswar within three months.	<ul style="list-style-type: none"> <li>• State – of – the - art environment laboratory is being set up. This laboratory will also cater to the waste characterization studies based on which the waste can be utilized in different units substituting the raw materials.</li> <li>• A typical case study of utilization of FES dust is enclosed as <b>annexure-XIX</b>.</li> <li>• Plastic waste generated in the plant are being sent for reprocessing at ACC, Bargarh,</li> <li>• Solid wastes generated from township are being incinerated in the incinerator of 270 Kg / hour capacity in an environment friendly manner.</li> </ul>

### GENERAL CONDITION:

SL	CONDITIONS	COMPLIANCE STATUS
i)	The project authorities must strictly adhere to the stipulations made by the Orissa State Pollution Control Board and the State Government.	<ul style="list-style-type: none"> <li>• We are strictly adhering to the stipulations made by SPCB and the State Government.</li> </ul>
ii)	No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment and Forests.	<ul style="list-style-type: none"> <li>• No expansion or modification shall be carried out without prior approval of Ministry of Environment, Forests and Climate Change.</li> </ul>
iii)	The gaseous emissions from various process units shall conform to the load/mass based standards notified by this Ministry on 19th May, 1993 and standards prescribed from time to time. The State Board may specify more stringent standards for the relevant parameters keeping in view the nature of the industry and its size and location\	<ul style="list-style-type: none"> <li>• Results of the gaseous emission levels from various stacks confirm to the standards and details are enclosed as <b>annexure-VII</b>.</li> </ul>

## HALF YEARLY COMPLIANCE REPORT

April – 2016 to September – 2016

iv)	At least four ambient air quality monitoring stations shall be established in the downward direction as well as where maximum ground level concentration of PM <sub>10</sub> , SO <sub>2</sub> and NO <sub>x</sub> are anticipated in consultation with the SPCB. Data on ambient air quality and stack emission shall be regularly submitted to this Ministry including its Regional Office at Bhubaneswar and the SPCB/CPCB once in six months.	<ul style="list-style-type: none"> <li>• Seven CAAQM stations have been fixed in the consultation with the SPCB in BSL and BEL integrated complex and half yearly report is being submitted to Regional Office, MoEF&amp;CC, SPCB and CPCB at regular intervals.</li> <li>• The last half yearly compliance report has been submitted vide letter no. BSL/MoEF&amp;CC/BS-01/2016-04 dated 25.04.2016.</li> </ul>
v)	Industrial waste water shall be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December, 1993 or as amended form time to time. The treated waste water shall be utilized for plantation purpose.	<ul style="list-style-type: none"> <li>• The industrial waste water as well as domestic waste water is being treated and utilized for various purposes like slag quenching, coke quenching, dust suppression and green belt development inside the plant premises.</li> <li>• The monitoring reports of Industrial waste water are being submitted to SPCB / CPCB / MOEF&amp;CC at regular intervals.</li> <li>• The results are well within the standards.</li> </ul>
vi)	The overall noise levels in and around the plant area shall be kept well within the standards 85 dB(A) by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels should conform to the standards prescribed under EPA Rules, 1989 viz. 75 dB (A) (daytime) and 70 dB (A) (nighttime).	<ul style="list-style-type: none"> <li>• Work zone noise monitoring results are within the standards and reports are being submitted to SPCB / CPCB / MOEF&amp;CC at regular interval.</li> <li>• Latest report is enclosed as <b>annexure-XX</b>.</li> <li>• The ambient noise levels recorded in the premises is enclosed as <b>annexure-XX</b>.</li> </ul>
vii)	Occupational health surveillance of the workers should be done on a regular basis and records maintained as per the Factories Act. The workers including the contract workers shall be provided with proper personal protection equipments	<ul style="list-style-type: none"> <li>• Occupational health surveillance of the workers is being periodically done.</li> <li>• Necessary PPEs are provided to all the employees including the contractor workers.</li> </ul>
viii)	The company shall develop surface water harvesting structures to harvest the rain	<ul style="list-style-type: none"> <li>• To estimate the rain water harvesting potential, a detail study</li> </ul>

## HALF YEARLY COMPLIANCE REPORT

April – 2016 to September – 2016

	water for utilization in the lean season besides recharging the ground water table.	<p>has been completed covering entire plant area and township.</p> <ul style="list-style-type: none"> <li>The findings of the study are being evaluated and same will be implemented in phase manner.</li> </ul>
ix)	The project proponent shall also comply with all the environmental protection measures and safeguards recommended in the EIA/EMP report. Further, the company must undertake socio-economic development activities in the surrounding villages like community development programmes, educational programmes, drinking water supply and health care etc.	<ul style="list-style-type: none"> <li>Compliance to all the environmental protection measures as recommended in EIA / EMP report is ensured.</li> <li>Various socio-economic development programs covering education, safe drinking water, sports and health care etc are undertaken in nearby villages.</li> <li>Rs. 10 crore has been spent on CSR activities till now.</li> </ul>
x)	The requisite funds shall be earmarked towards capital cost and recurring cost / annum for environment pollution control measures to implement the conditions stipulated by the Ministry of Environment and Forests as well as the State Government. An implementation schedule for implementing all the conditions stipulated herein shall be submitted to the Regional Office of the Ministry at Bhubaneswar. The funds so provided shall not be diverted for any other purpose.	<ul style="list-style-type: none"> <li>Adequate funds are earmarked towards pollution control measures as annual recurring cost.</li> <li>The funds earmarked for environment pollution control measures are not being diverted for any other activity.</li> </ul>
xi)	A copy of clearance letter shall be sent by the proponent to concerned Panchayat, Zila Parishad/Municipal Corporation, Urban Local Body and the local NGO, If any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the web site of the company by the proponent.	<ul style="list-style-type: none"> <li>Clearance letter sent to all concerned and also uploaded on our web site.</li> </ul>
xii)	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of the MOEF at Bhubaneswar. The	<ul style="list-style-type: none"> <li>Compliance status is uploaded on the Company's web site. The compliance report including results of monitored data is periodically submitted to the Regional Office of MoEF&amp;CC, CPCB and SPCB, Odisha.</li> </ul>

## HALF YEARLY COMPLIANCE REPORT

April – 2016 to September – 2016

	<p>respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely PM<sub>10</sub>, SO<sub>2</sub>, NO<sub>x</sub> (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the projects, shall be monitored and displayed at a convenient location near the main gate of the Company in the public domain.</p>	<ul style="list-style-type: none"> <li>• The pollutant levels namely PM<sub>10</sub>, SO<sub>2</sub>, NO<sub>x</sub> (ambient levels as well as stack emissions) are monitored.</li> <li>• The parameters from AAQ monitoring are displayed near the main gate of the Company.</li> <li>• Latest report is enclosed as <b>annexure-VI and VII.</b></li> </ul>
xiii)	<p>The project proponent shall also submit six monthly reports on the status of the compliance of the stipulated environmental conditions including results of monitored data (both in hard copies as well as by e-mail) to the Regional Office of MOEF&amp;CC, the respective Zonal Office of CPCB and the SPCB. The Regional Office of this Ministry at Bhubaneswar / CPCB / SPCB shall monitor the stipulated conditions</p>	<ul style="list-style-type: none"> <li>• The half yearly report is being submitted to the Regional Office of the MoEF&amp;CC, CPCB and SPCB.</li> <li>• The last half yearly compliance report was submitted vide our letter no. BSL/MoEF&amp;CC/BS-01/2016-04 dated 25.04.2016.</li> </ul>
xiv)	<p>The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of environmental conditions and shall also be sent to the respective Regional Office of the MOEF at Bhubaneswar by e-mail.</p>	<ul style="list-style-type: none"> <li>• The Environmental Statement in Form-V is being submitted to SPCB/CPCB/MOEF&amp;CC regularly.</li> <li>• The latest Environmental Statement was submitted vide our letter no. BSL/SPCB/BS-01/2016-06 dated 29.06.2016.</li> </ul>
xv)	<p>The Project Proponent shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the SPCB and may also be seen at Website of the Ministry of Environment and Forests at <a href="http://envfor.nic.in">http://envfor.nic.in</a>.
